Layout

- Navigation: Use a navigation bar at the top with the logo and navigation links (Home, About, Dashboard).
- Input Forms: Use a clean and straightforward design for input forms with appropriate labels and placeholders.
- Cards: Use cards for Login Form for the Login and Signup.
- Button Styles: Use rounded buttons with danger and warning and success colors as defined in the color section.
- Alignment: Keep elements aligned to a grid to maintain a neat layout.

Icons

Use font Awesome icons for UI Elements Where Appropriate

Images

Optimize images for web to ensure fast loading times.

Error Message

Provide clear and friendly error messages for form validation or API errors
